VD 15

Application:
Universal compaction machines suitable for compaction of soil, asphalt and paving. High-frequency vibration is especially suitable for asphalt compaction.

- modern styling
- integrated water tank
- large water tank filler
- folding handle
- resiliently mounted handle
- 100 Hz vibrator for smooth ride
- rounded edges of the compaction plate do not leave tracks on asphalt

Standard accessories:
Sprinkling kit for asphalt compaction

Options:
Soft pad for pavement compaction
Wheel kit for easy handling on the jobsite
Hour counter
Throttle lever on the handle

Type	Units	Value
Weight	Kg	85
Frequency	Hz	100
Centrigugal force	kN	15
Speen	m/min	25
Compact.plate dimens. (WxL)	mm	400 x 565
Engine		HONDA
Typ		GX160
Max.engine power/RPM	kW/min^{-1}	3,6/3600
Fuel		petrol
